

Gradus 3

Mix Verbal/Numerical/ Logic Test by Tor Arne Jørgensen

Gradus 3 has a mix design, with both verbal/numerical items. The test has a progressive structure for each part. Use of the internet is recommended for the verbal part. The numerical part is based on simple math, but the use of calculator is also recommended here. The test consists of a total of four parts. First analogy part from easy to harder, second part associations, third part there you have two items where i have concealed two cities in between the letters, one easy/one hard. The last part is numerical based from easy to hard. Sharing information with others regards to the test is forbidden.

Two submissions is allowed, and the test is untimed.
First norm will be set after the first 30 submissions.

Payment for:

Preliminary test: Free

After first normed test: Free
