Scout
Mix Analogy/Numerical Logic Test
by Tor Arne Jørgensen

Scout has a mix design, with both Verbal/Numerical items. The verbal analogy part is based on one word solutions only. Use of the internet is recommended. The numerical part is based on simple math only, the use of calculator is recommended. The test is set up like it is for a reason, see if you can be a good scout and find out why. Sharing information with others regards to the test is forbidden.

Two submissions is allowed, and the test is untimed.
First norm will be set after the first 30 submissions.
Payment for:
Preliminary test: Free.
After first normed test: Free
